# Economic development: value and growth drivers in the economic cycle

average order value (AOV) fluctuates

gross profit margin is slightly anti-cyclical

order frequency (OF) fluctuates

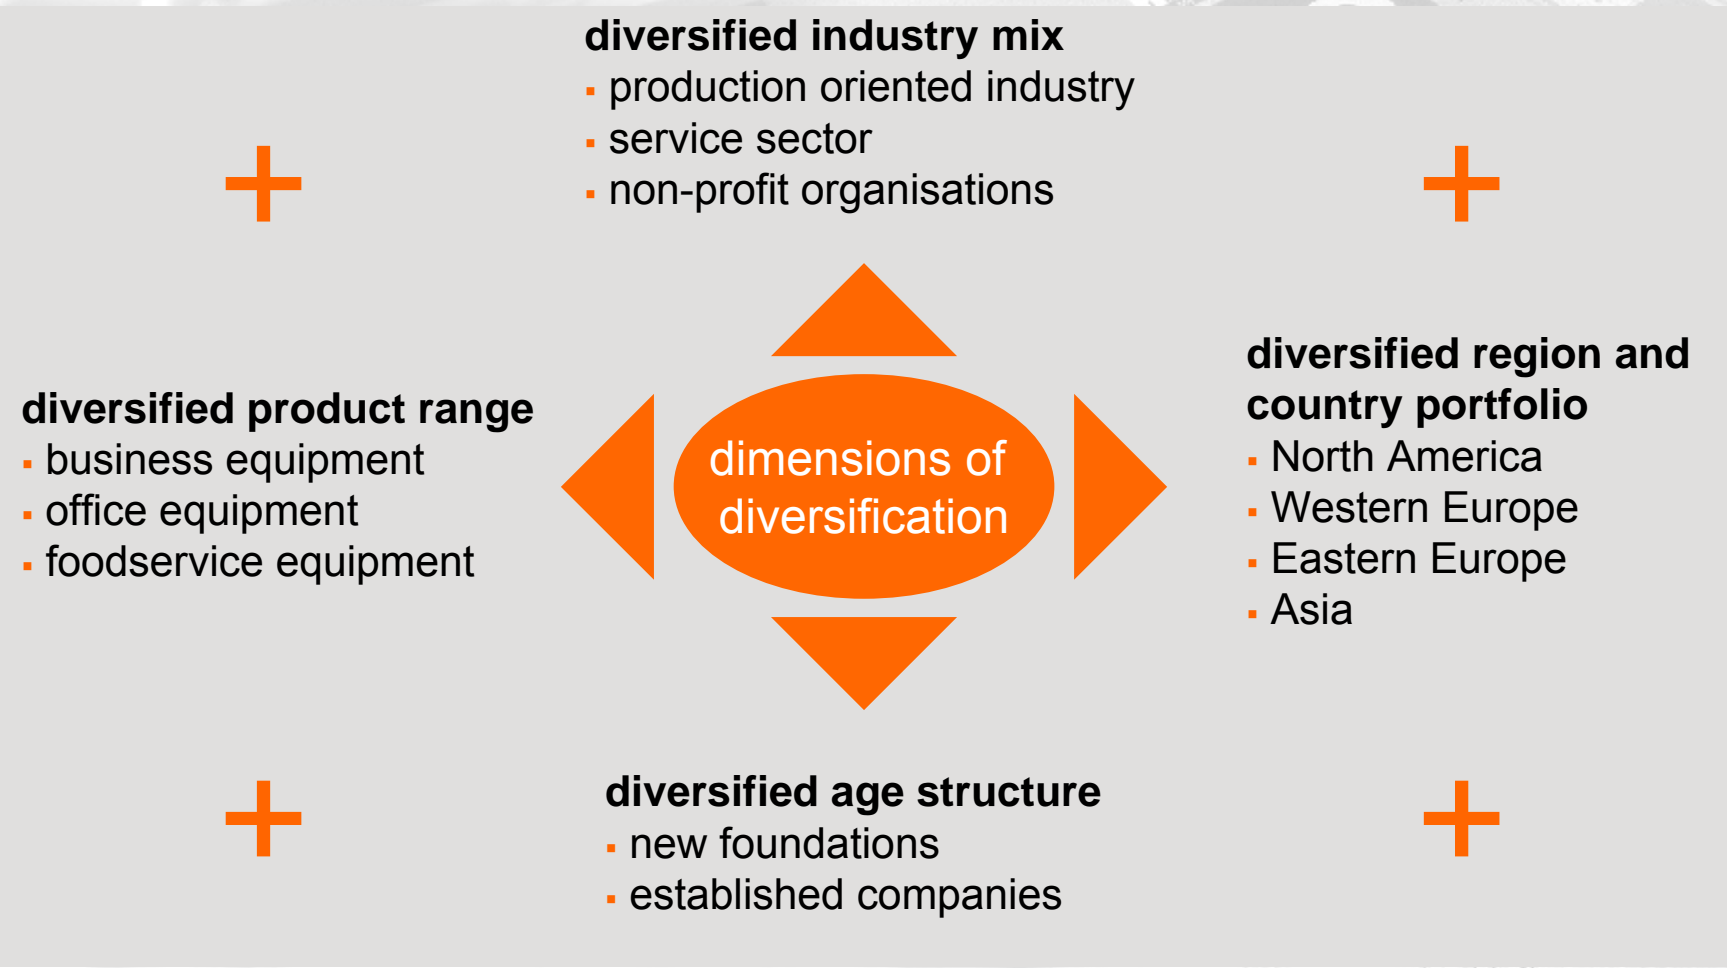

stable new customers/market share gains

→ stable development of number of orders as well as profitability

**TAKKTAG**

# Positive effects of diversification in 4 dimensions throughout cycle

# TAKKT growth strategy: new foundations as important growth contributors

## TURNOVER TAKKT GROUP

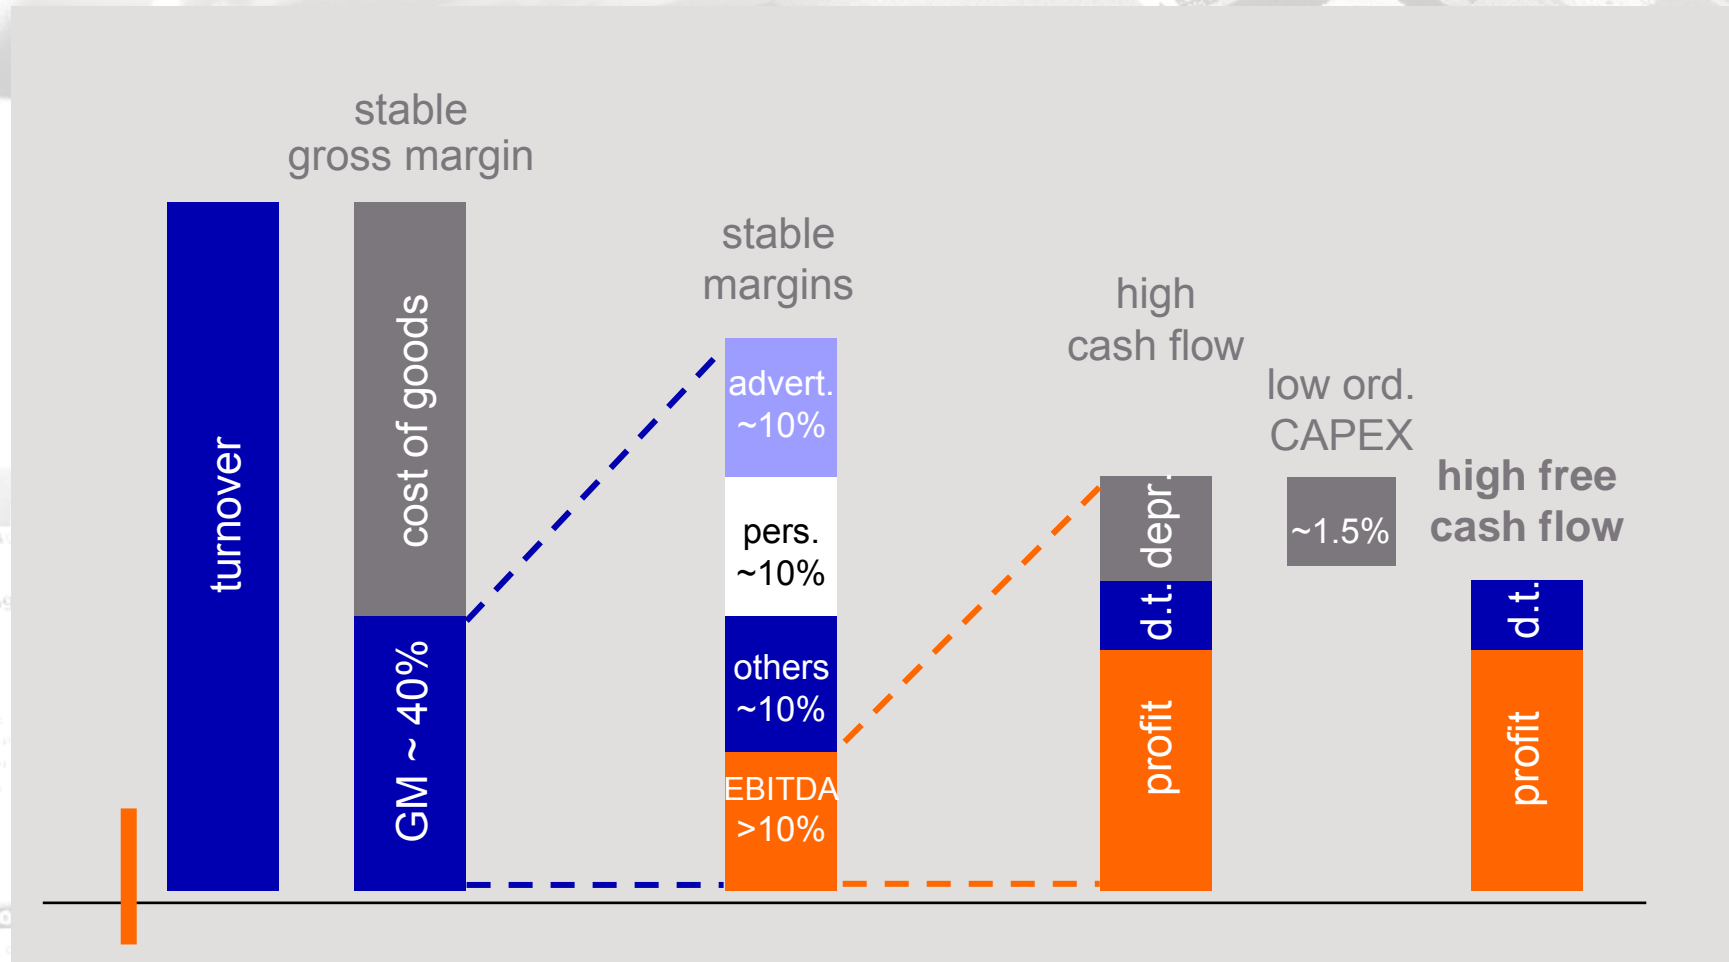

→ 29 foundations show dynamic growth and generate ~ 25% of turnover in 2007

**TAKKT**AG

# Flexible cost structure is basis for margin stability throughout cycle

Business model generates high free cash flow

→ effective management of profitability margins via strict cost control

**TAKKTAG**

# Industry trends: fostering TAKKTAG business model

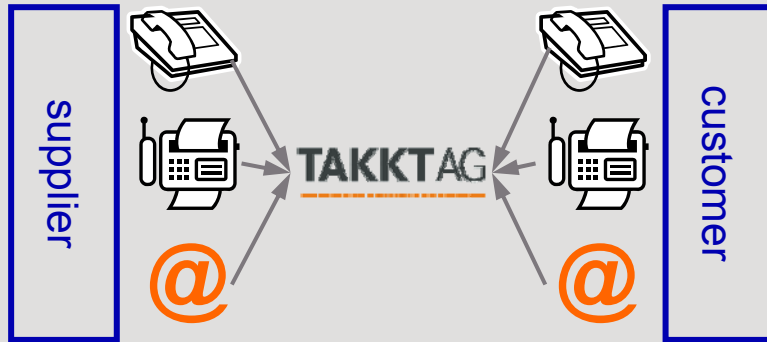

consolidation of business partners

from product cost to process cost thinking

e-commerce

internationalisation of businesses

**TAKKTAG**

## Changes in recognition of catalogue costs

---

- IAS 38 advertising and promotional activity - effective as of 1 January 2009

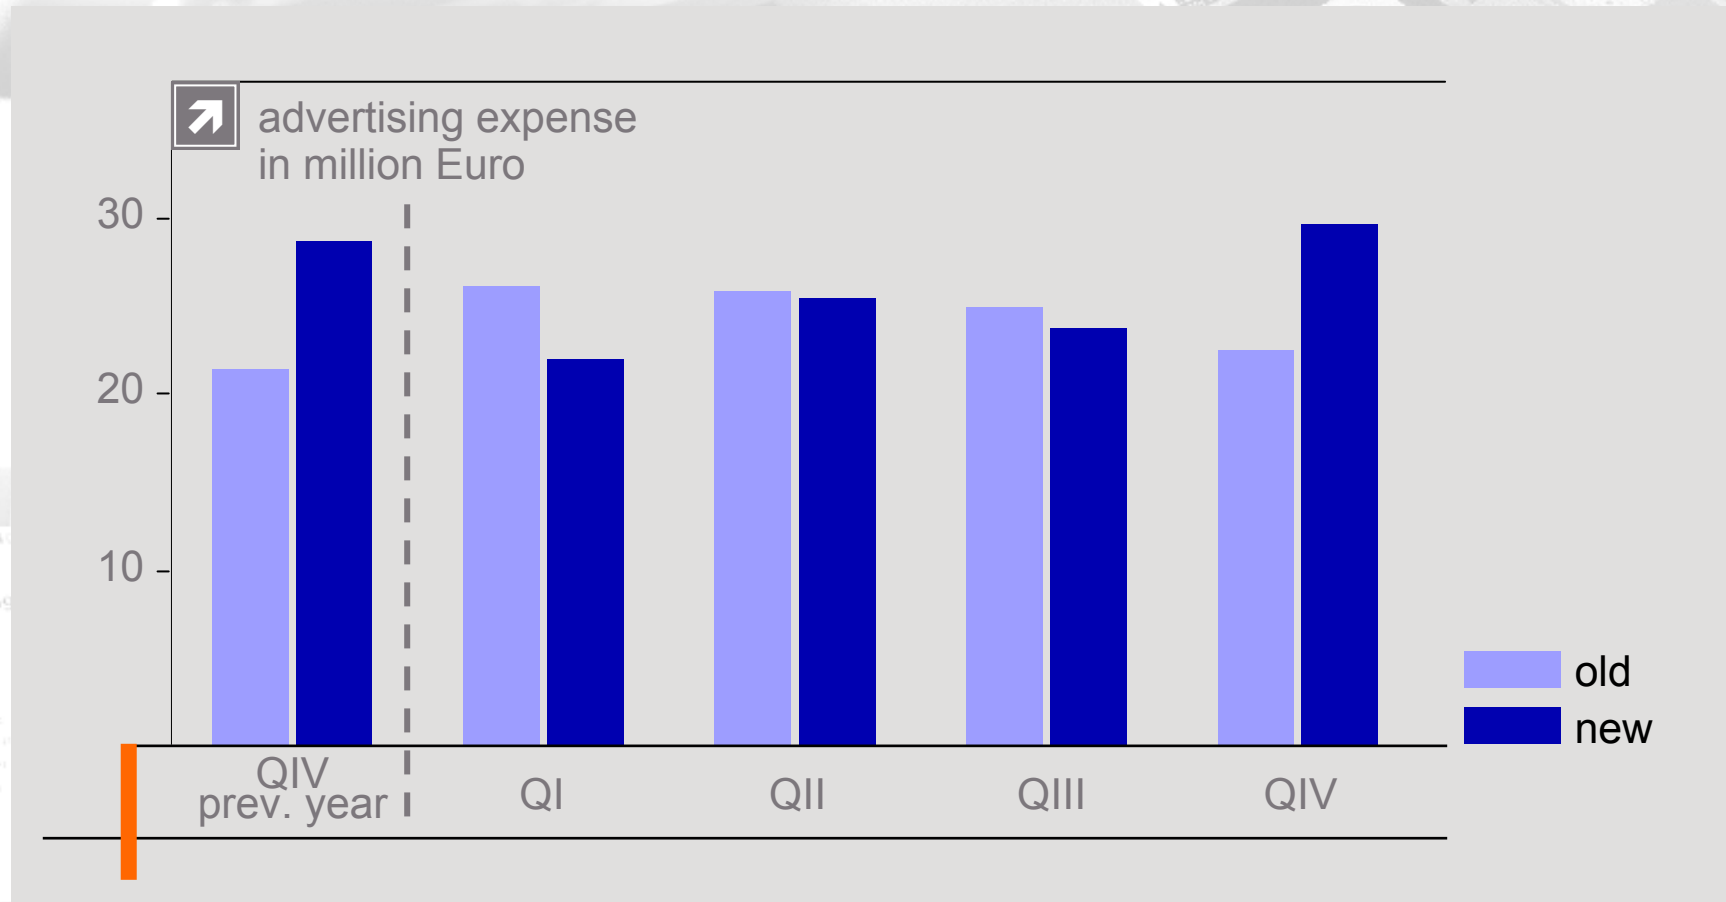

### current practice

- following “matching principle”:  
recognition of catalogue costs over the period of sales generation
- even distribution of advertising costs throughout the year

### new practice

- recognition of catalogue costs when company has the right to access those goods (meaning as soon as they are produced and invoiced)
- uneven distribution throughout the year with majority of expense to be recognised in months  
Dec/Jan – April/May – Aug/Sep

## Impact on catalogue cost recognition between the quarters

→ TAKKT will report adjusted previous year's numbers to ensure comparability of key figures

## Reasons for TAKKT's share buy-back tender offer

---

- I. strong balance sheet: high equity ratio (~60%) and low gearing (~0.3)
  - solid FCF-generation supports higher financial leverage
  - financial flexibility for potential further acquisitions, even after tender offer AND a further special dividend payment
  
- II. attractive TAKKT share price
  - trading at low multiples in general and compared to its Anglo-American peers
  
- III. TAKKT's tender offer likely to increase free float (currently 27.3%)
  - according to TAKKT knowledge, majority shareholder Franz Haniel & Cie. GmbH (72.7%) intends to participate in the public tender offer
  - TAKKT aims to cancel all purchased shares

→ tender offer results in balance sheet optimisation and EPS/CPS accretion

## Details of TAKKT's share buy-back tender offer

---

- fixed price public tender offer for the buy-back of up to 10% of current share capital
- tender offer was announced via ad-hoc publication on 15 January 2009
- duration of offer period is three weeks: from 21.01.2009 to 10.02.2009
- purchase price is EUR 7.90 (representing a premium of 2.07% on closing price in Xetra trading system on 12 January 2009)
- publication of the potential allocation quota on 13 February 2009
- Calyon acts as advisor, Commerzbank as Custodian/Depository Bank

## Growth targets and initiatives

---

### long-term growth targets

- long-term average growth 12% p. a.
  - ~ 50% organic growth
  - ~ 50% by acquisitions
- at least 1 new foundation or acquisition p. a.

### organic growth initiatives 2009

- consistent optimisation and extension of product ranges, catalogue pages and services
- further geographic expansion of KAISER + KRAFT
- preparations for roll out of Hubert business in Europe
- penetration of multi-brand strategy (online & offline)

# Clear potential for future growth

→ objective: diversified product portfolio via duplication of system business

**TAKKTAG**

## First glance into 2009: difficult year for TAKKT

---

- organic turnover decline in 2009 foreseeable
- slight gross profit margin potential compared to 2008
- measures to adjust costs to top line development implemented
- capital expenditure at low end of long-term average of 1 to 2 percent
- high dividend for 2008 likely to be paid in 2009

## That's why invest in TAKKT

---

balanced  
risk portfolio

- product diversification
- independence from customers and suppliers
- regional diversification

sustainable  
growth potential

- duplicable system business
- entering new markets / product groups
- expansion / penetration of established markets

high + stable  
profitability

- stable gross profit margin
- stable EBITDA margin
- high (free) cash flow and dividend potential

**TAKKTAG**

# TAKKT growth strategy: typical profitability life cycle of new foundations

profitability development follows typical life cycle curve . . .

. . . since the share of the advertising circulation going to customers builds up only gradually

**TAKKTAG**

# Catalogue circulation: reacting to economic situation

→ advertising cost block offers room for adjustment
